

ABG provides this opportunity with the intent that participating international leagues/teams and its players have an opportunity to train and compete in the US and gain valuable preparation and evaluation time towards the 2023-24 pro season.

The Combine features instructional sessions for players, as well as coaching staff, team individual practice sessions and a competitive round robin playing schedule while enjoying first class facilities and accommodation.

Some of the advantages the Combine offers are: (1) an occasion for multiple league teams to combine a single roster of players and (2) the unique opportunity for individual leagues to send its younger “rising stars” and coaches for extensive instruction and preparation in advance of the 2023-24 professional season.
